

Maths

In maths, we are studying number. We will use concrete apparatus to add and subtract 1-digit and 2-digit numbers.

You can help your child by encouraging them to develop quick recall of number bonds to 10 and 20, and some bonds to 100.

English

During English lessons, we will retell a story. We will write a letter and a set of instructions. We will extend our use of punctuation and start to use question marks, exclamation marks and commas in lists. We will use a wider range of conjunctions to link ideas in our sentences, e.g. 'and, but, because.' We will identify nouns, adjectives and verbs in texts and in our own writing.

You can help your child by asking them questions about the text when they read and by challenging them to point to the answer in the text. Talk about the punctuation and grammar (nouns, adjectives and verbs) in the texts you read.

PSHE, HRE

During PSHE and HRE lessons, and during our daily assemblies, we will share stories that help us to understand our British Values, including 'mutual respect' and 'individual liberty'.

You can help your child by chatting about our diverse society and the importance of treating one another with respect.

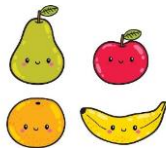

Year 2 Curriculum Autumn 2 2023-2024

RE

In RE we will consider how special Jesus is to Christians. We will look at images, read stories and listen to carols.

Science

In science, we will be finding out how to be healthy and talking about a balanced diet and the importance of daily exercise. We will make a healthy snack.

You can help your child by involving them in choosing and making the food they eat.

Design and Technology

In DT we will investigate, design and make simple kites.

You can help your child by encouraging them with their building and craft projects at home.

Computing

In computing, we will learn how to create music with digital tools.

You can help your child at home, by logging onto Google Classroom with them and helping them to familiarise them with their own login emojis.

Topic

In topic, we will learn to use an atlas. We will locate the continents and oceans and find out about the regions of the UK.

You can help your child by looking at an atlas at home. Locate the places you have visited.

Art

In art, we are going to explore 'shape' and 'form'. We will use paper and card when creating our artwork.

You can help your child continue to develop their fine motor skills by using scissors during craft projects at home.

Music

In music, we will improve our singing as we learn songs for our Christmas service.

PE

In our PE lessons, will develop our throwing and catching skills. We will develop eye-hand co-ordination by playing racket games, including badminton.

Help your child by encouraging them to complete the Government's recommended 60 minutes of exercise per day.
